

IS YOUR ENVIRON® GENUINE?

ALL ENVIRON® PRODUCTS MUST HAVE UNBROKEN U.S. WARNING SEALS!

Dear Valued Customer,

Several websites and online outlets have been illegally selling “Environ” labeled products. Please be aware that **they are not authorized Environ® distributors**. Environ® does not sell - and has never sold - any of its products online.

All genuine Environ® products are labeled with an unbroken U.S. Warning Seal, and are available exclusively through worldwide distributors, Environ-trained Professionals and MDs. This is to protect our valued customers and to ensure that you receive only the highest-quality skincare products.

When you buy Environ® products originating from an authorized distributor, your products are guaranteed to be:

- **The Freshest Products Available:** Environ® products come directly from the manufacturer, meaning that they will never be expired, sold past the sell-by date, contaminated, or refilled with a counterfeit product.
- **Containing the Most Active Ingredients:** Authorized products are never X-rayed during shipping and are stored under strict temperature-controlled conditions to ensure their efficacy.
- **Custom Selected for Your Unique Skin Type:** Environ® products contain powerful ingredients. Only Environ-trained Professionals and MDs have received the necessary training and education to select the best combination of products for your skin type to ensure that you avoid adverse reactions.
- **In Compliance with Canadian Customs and Health Canada Regulations:** Genuine Environ® products require clearance and registration with the Canada Customs and Health Canada authorities. Only authorized Environ® distributors, Environ-trained Professionals and MDs sell Environ® products in compliance with these regulations.
- **Returnable if You Are Not Completely Satisfied:** Environ® will accept returns on any of our products if you are not fully satisfied, as long as they have not passed their sell-by dates.

Protect yourself and the health of your skin by ensuring that you only purchase genuine Environ® products. Remember the valid warning **“Buyer Beware - You get what you pay for!”** All parties involved in the purchase of “Environ” products online are liable to be prosecuted under the **fullest extent of the law** for participating in a fraudulent scheme, the purchasing and/or resale of illegal counterfeit goods, or illegal importing. Should you suspect that you have unwittingly purchased illegal “Environ” products, **avoid your potential liability** by demanding a full refund and reporting these irreputable and illegitimate business activities to our legal department at admin@skinhealthcanada.com or the appropriate authorities.

Regards,
Skinhealth Canada
